12th March 2018

Dear Parents & Carers

e-Safety

In this day and age with children accessing the internet on all sorts of different devices, it is really important that school takes e-Safety very seriously. All classes receive e-Safety training as part of their computing curriculum and key messages are shared regularly including on special days such as Safer Internet Day. Despite all of this work, we have seen an increase in complaints to school about pupils' behaviour to one another on-line whilst out of school.

On Tuesday 20th March, Jason Cochrane from GEM Education, who is a company computing consultant, will be delivering a session to Year 5 and 6 pupils. He will also be delivering a session to parents at 5:00 pm that night.

This is open to all parents and if your child is regularly on-line or has access to a phone, tablet or games console, I strongly urge you to attend if you are available to. Unfortunately this session is not suitable for children and is only available to parents and carers.

I hope you will take up this opportunity as I know the session will be very informative.

If you could please return the slip below indicating if you are able to attend so we will have an idea of numbers attending for seating arrangements

Yours sincerely

aramanandi
